Dear Parents of Incoming 6th Grade Students,

Immunization Requirements for School Attendance

The Indiana Department of Health requires the following additional immunizations for all students entering 6 th grade:

1. One dose of MCV4 (meningococcal) is required for 6 th grade.
2. One dose of Tdap (tetanus, pertussis, and diphtheria) is also required for 6 th grade.

You may give updated immunization records to Nurse Christina before the end of this school year or to the nurse at the East Central Middle School during book days.

Please make sure you make your student's appointment as soon as possible as these tend to fill up quickly.

Thank you for your cooperation,

Nurse Christina

BES Nurse

Bright Elementary provides opportunities for quality education. Staff and parents cooperate to maintain a secure learning environment and to instill the desire to become kind, responsible lifelong learners.
