

Bright Elementary Student Pick Up Map & Procedures

Family members picking up students after school are asked to enter from State Line Road and snake through the parking lot as directed by the map. Additionally traffic cones will be placed in the parking lot to direct the flow of traffic. Once you reach the pick up zone (as signified by the red stop sign ) there will be numbered spots for curbside student pick up.

Each student will be given two brightly colored **Car Rider Verification Tickets** for family members to display in their windshield for pick up. Bright Elementary Staff Members will check these tickets as each vehicle arrives and radio to release the student to the appropriate family member.

We ask that family members not exit the vehicle while in the pick up line. If your child requires assistance getting into the vehicle or securing their seat belt, we ask that you pull into a parking spot directly to the left of the pick up area, (as signified by the smiley face )
